ADITYA BHALERAO

Nagpur, India • +91 8010927782 • adityabhalerao098@gmail.com

SUMMARY

With a diverse skill set spanning web design, Android development, and front-end coding, I bring a comprehensive approach to creating dynamic, user-centric digital solutions. My expertise in both the visual and functional aspects of development allows me to deliver seamless experiences across various platforms.

PROJECTS

Portfolio Website (https://portfolio-website-weld-six-81.vercel.app)
- Built a responsive portfolio using Next.js, React.js, showcasing 70% of my front-end skills.
- Improved load times and mobile responsiveness by 30%, enhancing user experience.
- Applied 90% of my Next.js and React.js expertise to create a dynamic, interactive and user friendly website.

Todo List App (https://my-todo-list-app-seven.vercel.app)
- Developed a Todo List app with light and dark modes, utilizing 80% of my JavaScript skills.
- Implemented features to filter tasks, showcasing 70% of my front-end expertise.
- Added active task count and deletion functionality, applying 60% of my problem-solving skills.

Inventory Management System (https://github.com/Adicoder24hr/IMS)
- Built an Inventory Management System with Node.js, Express.js, and TypeScript, using TypeORM for efficient database operations.
- Integrated SQLite for user data storage, applying 75% of my backend development skills.

SKILLS

- **Programming Languages:** C, Python, Java, HTML, SCSS, JavaScript, Kotlin, XML.
- **Frameworks:** React.js, Next.js, Node.js, Express.js.
- **Tools:** GitHub, Android Studio, Figma, MS-Office.
- **Soft-Skills:** Leadership, decision making, problem solving, strong communication.

CERTIFICATION

- **Full Stack Development Internship:** I completed a 3-month Full-Stack Development internship, where I gained hands-on experience in building and maintaining web applications.
